tourneyx.com/app/profile/sd_charris

I am a full-time software engineer and father, part-time bass fisherman. I started competitively kayak fishing in 2022 and know this is just the beginning. I love customizing my rigs, designing custom parts for my kayak, researching, and innovating anything that will give me the edge over my competition.

Born and raised in Southern California and residing in San Diego, California, my first two years in this sport have taken me to Texas, Arizona, and up and down the coast of California. I enjoy the competitive nature of this sport, but ultimately, I compete for the opportunity to meet new people and experience new places, all while sharing these experiences with my family.

3RD PLACE
Slay Nation
CA Kayak Series Clear Lake TOC

FUTURE

My goals for 2024 are to continue participating in local trails and events in California, surrounding states, and, if the opportunity presents itself, throughout the country with my family in tow. I am actively looking to establish relationships and partnerships with brands and companies that I trust, use, and believe in.
